## ITS WORK IS ENDED.

The Fifty-Third Congress Comes to An End.

## REVIEW OF THE SESSION.

Marked Feature the Inability of the House and Senate to Agree—Important Measures.

WASHINGTON, D. C., March 4.—

A review of the work of this last session of the Fifty-third congress, which ended at noon today, must necessarily deal more with what was attempted to be done than that which was accomplished, since most of the important business considered has been regulated to the first class. The term has been particularly marked by the inability of the senate and the house to agree upon any of the most important problems presented by them. Congress met on the 4th of December, last, with one perennial and imperative task, to frame and enact the various appropriation bills; next in importance was the financial question, for which no definite plan of settlement beyond many free silver bills and various individual schemes were then in view. Several important bills came over as a heritage from the preceding session. Foremost among them were in the house, the Nicaragua canal bill, the railroad pooling bill and the bill for the settlement of the indebtedness of the Union Pacific railroads, known as the Reilly bill.

The Nicaragua canal project has not been able to secure a hearing in the house.

The pooling bill was passed by the house early in the session, but the senate refused to consider it by a negative vote of 42 to 24 on the question of consideration.

The most interesting chapter in the history of the session is made by the attempt at financial legislation in both houses. These are two well known to require recapitulation. No financial legislation has yet resulted from the host of bills introduced during the session, with more or less weight of authority behind them.

The pension bill, as enacted, contained provisions that pensions shall not be paid to non-residents who are not citizens of the United States, except for actual disabilities incurred in the service, directing examining surgeons to state the ratings to which they think the applicants are entitled, and fixing the lowest rate of pension at \$6 a month. The diplomatic and consular bill increased the salaries of several foreign representatives and the senate placed in it an amendment authorizing the president to contract for the laying of a cable between the Hawaiian Islands and the United States and to use \$500,000 in the work, an amendment which the house refused to accept. The agricultural bill empowered the secretary of agriculture to enforce rules for the inspection of live cattle, whose meat is intended for shipment abroad in any form, and regulations to prevent the shipment of condemned carcasses abroad or from one state to another and fixed heavy penalties for violations of such regulations.

The Commercial Travelers' organization secured an amendment

to the inter-state commerce law permitting the issuance of joint interchangeable 5,000 mile tickets good over more than one road. The house adopted a joint resolution, or an amendment to the constitution, providing for the election of United States senators by direct vote of the people of the states, but the resolution was reported adversely by the senate committee on privileges and elections.

The only legislation affecting the tariff act was a resolution to extend the time to April 15 for making returns to the interrogatories to the income tax sections, and modifying the questions required to be answered.

The following figures show approximately the total appropriations made during the present session of congress: Agricultural, \$3,303,700; army, \$23,252,608; diplomatic and consular, \$1,575,073; District of Columbia, \$5,916,533; fortifications, \$1,904,557; Indian, \$9,976,048; military academy, \$424,261; pensions, \$141,381,570; postoffice, \$89,545,997; general deficiency, \$8,600,000; sundry civil, \$47,140,000; urgent deficiency bills, passed early in the session, \$2,357,321; legislative, executive and judicial, \$21,900,000; naval, \$29,100,000; permanent annual, \$113,073,956; miscellaneous, \$50,000. Total, \$497,994,604.

## CORRALLED IN A CAVE.

Bill Doolan and His Gang Surrounded by Officers.

PERRY, Ok., March 4.—John Boyle, a deputy marshal, came from Pawnee, thirty miles east of here, and reports that a posse of deputy marshals have Bill Doolan and five of his gang surrounded in a cave twenty-five miles southeast of Pawnee in the Flat Iron country. Boyle came here for reinforcements who will go the posse's aid. The posse is led by Will M. Nix, of this city, a brother of the marshal of the territory, and his posse consists of ten men, J. S. Burke, Harry Lee, Bill Tighman, Peck Thomas, John Hixon, Charlie Dugger, Geo. Stormer, Ed Kelly, John Haley and Frank Canton. A large posse will leave tonight for the scene.

This raid has been contemplated for some weeks. The marshals are armed to their teeth and say they expect to stay around the cave till they get their game. This cave is located a few miles north of Ingalls, where the fight with Doolan's band occurred on the first day of September, 1893. John Hixon, who is with the above posse, led the terrible fight at Ingalls. The news created much excitement here as many of the officers live here, and are the best men in the territory.

## SEED GRAIN FOR NEBRASKA

To Plant the Drought Stricken Counties 5,000,000 Bushels is Needed.

OMAHA, Neb., March 4.—The members of the State Relief commission, who went to Chicago and St. Louis to secure seed grain for Nebraska destitute farmers, returned yesterday. The boards of trade of both cities promise to have each county in Missouri and Illinois donate a car of seed grain. Iowa, Minnesota and Indiana also desire to contribute. It is estimated by Secretary Nason that the five states would contribute not less than 500 cars of seed and seed grain. The commission has made a careful estimate and it is stated that to plant the land under cultivation in the

## GOT OFF LIGHTLY.

Ten Months for the Murder of Post-office Inspector McClure.

Special to the DEMOCRAT.

KANSAS CITY, Mo., March 4.—The trial of Bill Alden, on the charge of murder for the killing of United States Postoffice Inspector McClure on the night of the carnival parade in this city in October last, ended today with a verdict of guilty and Alden was given ten months in the county jail.

McClure was a spectator of the parade and was stricken down without an instant's warning.

The deceased was 31 years old and lived at Gallatin, Mo.

MANY BLEEDING PILGRIMS.

The Wounded in the Mexican Railroad Disaster Camped by the Wayside.

MEXICO CITY, Mexico, March 4.—

Many bruised and wounded passengers continue to arrive in this city from the terrible wreck on the Inter-Oceanic railroad. Many of the wounded and bleeding were brought into the city on the relief train, but hundreds of those able to walk made the attempt to reach shelter in the surrounding villages and strung out on the way to this capital in a pitiable procession. Many fell by the wayside and were afterwards picked up more dead than alive by other relief trains which followed at intervals.

Hundreds are still camped at the scene, sitting around small fires kindled from the wreckage. Bleeding pilgrims are also camped at places more distant from the disaster, and others are cared for by the hospitable people of Los Reyes, Lacomania and Ayotla.

Just what the mortality is it is impossible as yet to say. It is exceedingly probable that within the next few days more bodies will be found in secluded spots in the vicinity of the wreck. Many thinking they were strong enough to walk the twenty-two miles into the city made the attempt. Overcome by weakness, they sank down by the dozen, and a few have been found dead where they fell.

The military hospital in the City of Mexico, where the wounded were conveyed from the relief trains by order of President Diaz, still echoes with the groans of the dying and the delicious mutterings of many unfortunates. Death occasionally comes as a relief.

The Universal newspaper makes serious charges against Nuffer, the American engineer, who is held by many to be responsible for the accident. Nuffer is now in prison and will probably receive a long sentence unless later developments throw a different light on the affair and materially change public sentiment.

Numerous suits for damages are being prepared against the Inter-oceanic by the relatives of those killed in the wreck. The officers in charge of the mangled remains awaiting burial at the scene of the disaster waited as long as possible before interment to allow as complete identification as possible to be made. This was impossible in many cases, but the testimony thus secured will be of great assistance in pushing the claims against the company.

The petitions are being filed before Judge Juan Perez de Leon, of the first department of the district court, who is busily engaged with his court force in taking the preliminary depositions. The attempt to collect damages is being watched with interest. If damages are allowed by a Mexican court in a case of this kind it will be almost in the nature of a precedent, as such a proceeding is a very unusual one in this country.

Relief for Postmaster Hart.

The claim of V. P. Hart, postmaster at Sedalia, was included in the deficiency bill today. The secretary of the treasury is authorized to pay him about \$4,000, postoffice funds caught in the First National bank failure at Sedalia.—Washington (D. C.) Special to the Kansas City Journal.

## FIGHT TO A FINISH.

That's What Capital Removal Means.

## MAJOR BITTINGER'S SAY.

The St. Joseph Herald Believes Sedalia's Proposition Was Made in Good Faith.

Major John L. Bittinger, representative from Buchanan county, and editor of the St. Joseph Herald, who voted in opposition to capital removal when the resolution was before the house, had the following to say editorially in last Saturday's issue of his paper:

Whatever may be the outcome of the capital removal scheme, it is evident to those who are best informed at Jefferson City that it is going to be one of the leading features in the next state election. It is folly to disguise the fact that the promoters of the movement are in deep earnest and that the people of Jefferson City and those elsewhere who are opposed to the scheme will fight it to the bitter end. Since the concurrent resolution to remove the capital to Sedalia was passed by both branches of the general assembly there has been much idle talk regarding the matter. The wisest plan for both sides to pursue now is to look the matter squarely in the face, and recognize that the struggle is to be one of mammoth proportions. Sedalia has gone to far too far to retrace her steps. If she fails to give the promised guarantees at the proper time the scheme will never have a ghost of a show of going through. The responsible men of Sedalia say they fully recognize this fact and if they do not completely carry out the promises they have made they do not expect to see the capital removed.

Here then is a fair and square proposition and the real point to be decided at the next election is whether it will be the right thing to remove the capital to Sedalia, even if the people of that city give all of the necessary guarantees. The voters of Missouri should understand that they have a legitimate proposition to consider. Hon. J. H. Bothwell, Senator Yeater, John N. Dalby and a number of other citizens of Sedalia are men of the highest character and their reputations for both truth and veracity are unassailable. Each and every one of them have assured a Herald representative at the state capital that they expect nothing to be done in the matter of capital removal unless they carry out every promise they have made to the letter and give the proper guarantees long before the election that they will do so.

It is well known that The Herald has opposed the capital removal scheme, but we are of the opinion that we would be doing our readers an injustice to mislead them in any respect regarding the matter. If the capital removal question is to be defeated it must be done upon broad grounds, for a moment's reflection ought to convince any intelligent mind that the men who are behind the capital removal scheme are not agitating it for mere pastime. Indeed we would be doing a grave injustice to our readers who are opposed to capital removal to mislead them by saying that the concurrent resolution was nothing but a buncombe measure. An issue has to be met and the sooner this fact is understood the better it will be for the whole people.

When such men as Bothwell, Yeater, Dalby and Quigley say to you: "Gentlemen, we have given our solemn pledge that we will do all that we have promised, we know whereof we speak and long before the time comes for voting upon the measure if we have not fully satisfied every voter in the

state that we will fulfill our promises we do not ask for a single vote," what is left for the people but to wait and see. If they fail to keep their engagements of course the matter will fail. If they carry out every promise they have made then the people will have to say whether it is best to remove the capital from Jefferson City to Sedalia or keep it where it is, notwithstanding the fact that Sedalia will not only agree to do all she has promised, but will give all the requisite guarantees, six months before the people are called upon to vote on the proposition, that every promise will be fulfilled.

There is no doubt whatever that if the opponents of capital removal slumber along in the belief that those who are engineering the capital scheme are not duly fortified and ready for action they will meet with overwhelming disaster. It has to be a fight to a finish on both sides and nothing can be done by either one whistling in the dark. Vast interests are involved upon both sides and the issue must be met and the final verdict must be in favor of the people. The question must be thoroughly canvassed so that the voters of the state can decide whether it is best to remove the capital or let it stay where it is. It is not a question of individual interests, but one in which every citizen of the state is deeply interested. The motto of Missouri is Salus Populi Suprema lex esto, which means that the welfare of the people is the supreme law.

Preparations are being made to open the campaign upon the removal question which will be fully completed in a short time. The matter will be thoroughly canvassed as it should be, so that every voter in the state can vote intelligently and rightfully upon the subject.

## The Capital Removal Question.

The business men of Sedalia, by their enterprise, sound judgment and aggressive and systematic effort for the removal of the capital to their beautiful and progressive city, commend themselves and their project to the favorable attention of every fair-minded and true-hearted citizen of the state. They have proceeded on just lines to the consummation of a result which will be of advantage to a large proportion of the people of the state, as well as an honor to their city.

Having perfected a most complete organization, secured control of large tracts of valuable real estate and provided an ample fund of available cash capital, they propose to give the state of Missouri a state house more convenient in arrangement, more modern and imposing in design and of greater intrinsic value than the buildings now occupied in Jefferson City, and without one cent of expense to the people.

In the transfer of the seat of government the state will enjoy the advantage of acquiring this valuable property without sacrificing that in which it now has title. That is to say, it is proposed that the property in Jefferson City shall remain in possession of the state to sell, use or dispose of in any way that will best subserve public interest. It is not only secure from loss, but certain to gain by the change.

The people will be benefited in various ways by the transfer. Sedalia is more accessible, better equipped in the matter of railroad facilities, and better provided with accommodations for entertaining people who have business with the public officials. The people will appreciate a condition which will afford them hotel accommodations adequate to the needs of the present time. All these things combine to recommend the enterprise of the Sedalians to favorable consideration.—Kansas City Times.

## The Case Clearly Stated.

The parties who are opposed to a removal of the state capital from Jefferson City to Sedalia, on the ground that it will be at the expense of the state, ought to read the bill as it passed the house and senate. The article says the removal shall be made when the citizens of Sedalia erect suitable buildings, the same to be approved by a committee composed of state officers, including the governor. The terms of the bill have been accepted by Sedalia, and her citizens will give a good and sufficient bond that they will fulfill the agreement. Mr. Quigley, the gentleman at the head of the removal proposition, has stated that this bond would be executed before the amendment was submitted to the voters in November, 1896. This would be done as a guarantee to the people of the state that Sedalia was acting in good faith and expected to build the capital if the people of the state voted for removal. In case of failure on Sedalia's part, the bond would be forfeited and the capital would remain at Jefferson City. He who believes that the state would be en-

trapped into building a new state house for Sedalia's benefit can rest easy.—Washington Observer, 1st.

## Genuine Ability Admired.

The newspapers of the state, whether for or opposed to the removal of the state capital to Sedalia, have copied the article of the Herald entitled "Superb Generalship," which demonstrates how sagacious Senator Yeater and Representative Bothwell were in managing the removal concurrent resolution. This but demonstrates that the people admire genuine ability wherever it is found.—St. Joseph Herald.

C. A. Pratt, a former Sedalia hotel keeper, now of Little Rock, St. Louis club delegate to the A. K. C., easily repeated his New York triumphs at Detroit last week, winning everything in sight with his string of St. Bernards. His winnings in New York were:

Five firsts in classes of Sir Bedivere, Rustic Beauty, Le Prince, La Princesse and Alton II.; special for best St. Bernard in show, and special for best stud dog with two of his puppies; silver cup for best dog and also for best bitch, and special for best four R. C. St. Bernards.

In Detroit he won four firsts and one second with the same dogs; silver cup valued at \$250, which had to be won twice by the same exhibitor; special for best bitch, also for best pair, to consist of dog and bitch, then for the best St. Bernard in the show, Sir Bedivere barred.

The undersigned desire us to publish the following extract from a letter of Chas. M. Gutfeld, of Reedley, Fresno Co., Cal., as they handle the remedy referred to and want their customers to know what a splendid medicine it is:

"It is with pleasure I tell you that by one day's use of Chamberlain's Cough Remedy I was relieved of a very severe cold. My head was completely stopped up and I could not sleep at night. I can recommend this remedy." A cold nearly always starts in the head and afterwards extends to the throat and lungs. By using this remedy freely as soon as the cold has been contracted it will cure the cold at once and prevent it from extending to the lungs.

The jury in the case of the State vs. Thomas J. The defendant's attorneys will immediately take measures to appeal the case to the supreme court, the ground of the appeal being that the court erred in the part of its instructions which permitted the jury to find a verdict of murder in the second degree.

## BREACH OF PROMISE.

Philip Manger, of Boonville, Mo., is the Defendant.

Philip Manger, of Boonville, is about to be caused trouble from Lincoln, Neb., as the result of the termination of a school romance.

Miss Lulu Harrington, by her mother, Mrs. Olive A. Harrington, has filed suit at Lincoln for breach of promise against Manger, asking for \$5,000 damages. Miss Harrington is 17 years old. She alleges that she became engaged to Manger November 17, 1894. Manger, however, she alleges, jilted her and married another lady last month in Boonville.

The young lady refused to talk at length about the case, but said that Philip had apprised her of his contemplated marriage, and that she had refused to release him from his engagement to her. Miss Harrington is a tall and good-looking brunette and is prominent socially in Lincoln. Manger is a prominent merchant of Boonville and wealthy.

In the fall of 1893 a son of Mr. T. A. McFarland, a prominent merchant of Live Oak, Sutter Co., Cal., was taken with a very heavy cold. The pains in his chest were so severe that he had spasms and was threatened with pneumonia. His father gave him several large doses of Chamberlain's Cough Remedy, which broke up the cough and cured him. Mr. McFarland says whenever his children have croup he invariably gives them Chamberlain's Cough Remedy and it always cures them. He considers it the best cough remedy in the market.

Quiet Sunday in St. Joseph.  
Late Saturday night the Retail Liquor Dealers' association of St. Joseph held a meeting and decided to close all lines of business on Sunday in retaliation for the closing of the saloons by the authorities. The result was that yesterday was strictly a "dry" Sunday. The only business which did run were the churches, the hotels and the street cars, all other lines being shut up. The saloonmen say they will shut off the street cars and hotels next Sunday.

## RAILROAD RUMBLE.

Very Little Demand for New Passenger Coaches.

## ORDERS FOR OTHER CARS.

Items of Interest Picked Up From Various Sources for the Benefit of "Democrat" Readers.

The Pullman Car company is quoted as follows: "There is no special improvement in trade. We are receiving a few orders all the time, but they are small ones. Passenger traffic is light, and that naturally affects the business of the Pullman company. An order for 100 cars looks as large now as an order for 1,000 cars used to. There can be little improvement in the railroad business until a good crop is insured."

In other lines of rolling stock business is much better. The Illinois Central has recently given an order for 1000 freight and 300 refrigerator cars; the Duluth and Iron Range for 400 ore cars; the St. Louis, Alton and Terre Haute for 126 furniture and box cars; the Southern railway for 350 ventilated fruit cars; the Missouri, Kansas and Texas wants 2000 freight cars. The New York Central has ordered 3000 cars, half of which are to be built in Detroit. The works at Huntington, W. Va., are about to start up with 1000 employees. The Boston and Albany has ordered twenty freight locomotives from Schenectady, and the Lehigh Valley has ordered twenty-five freight and five passenger engines from the Baldwin works.

Orville Vaughn, general agent of the Chicago and Alton road at Slater, died last night. He had been connected with the Alton since 1854. Up to 1885 he was assistant superintendent and master of transportation. Mr. Vaughn was one of the first telegraphers to read by sound.

The earnings of the Missouri Pacific-Iron Mountain for January, compared with January, 1894, show a decrease in gross of \$153,946, and a decrease in operating expenses of \$121,319. The reduction of operating expenses in the above amount, therefore, reduces the decrease in net earnings to \$32,000.

W. B. Coley, who resigned his position as traveling accountant of the M., K. & T., several months since, on account of ill health, returned from the north yesterday and today assumes the place now filled by Charlie Fleck, says the Denison Herald. The change will relegate Fleck to the ranks again, from which he recently arose, and places him next in line for promotion. Coley has spent the winter on a farm in Indiana regaining his health. He will have charge of the Northern Texas territory.

## ACID EXPLODED.

Two Men Were Killed and Two Were Seriously Hurt.

PITTSBURG, Pa., March 4.—By the explosion of a tank of sulphuric acid at McKeesport two men were instantly killed and two were injured.

The killed are: H. H. Morgan and Wm. Hill. The injured: Wm. Laveate and Mike Sovereitch.

The three first named were employees of the National Tube works and were engaged in transferring a car load of sulphuric acid to a tank inside the works.

Suddenly the tank exploded and the men were hurled many feet. Hill was terribly mangled and died instantly, and Morgan's neck was broken. Laveate was thrown twenty feet and was seriously injured.

The head of the tank, weighing 2,000 pounds, was blown through the roof of the works and alighted on the roof of a Hungarian boarding house near by. Mike Sovereitch was sleeping in an upstairs room and when the huge piece of metal crashed through the roof a piece of plaster struck him on the head, inflicting a deep wound. No cause for the explosion is assigned.

Two Immense Meetings of Citizens of Chicago.

CHICAGO, March 4.—Never did a larger or more earnestly intentioned gathering assemble in this city than that which responded last evening to a call, issued jointly by the Civil Service Reform league and the Civic Federation, for a mass meeting to arouse sentiment in regard to the ordinances which were passed by the council Monday last.

Long before the hour for the meeting Central Music hall was crowded to suffocation, and as hundreds were still demanding admission, an overflow meeting was organized at Battery D. It is a question which was the larger, the meeting or the overflow.

Wild and repeated cheering greeted the denunciation of the offending city fathers, and the final action of the meeting was ratified with a roar that is expected to echo throughout the city for many a day to come.

Lyman J. Gage opened the main meeting with a speech that aroused

the audience to the highest pitch of excitement. Others followed with brief speeches and then resolutions were adopted without a dissenting voice.

The resolutions denounce the action of the city council for granting to unknown parties the right to use practically all that remains of the public thoroughfares; approve the proposed legislative inquiry into the matter; call upon the mayor to protect the interests of the people and declare that every alderman who voted for the ordinances should be relegated to private life; request the closest scrutiny of aldermanic candidates at the coming election and the support of good men, irrespective of party.

The resolutions closed with the declaration that, for the preservation of municipal purity, municipal prosperity and municipal property, subordination to party must, when necessary, give way to higher sentiments of city patriotism. The overflow meeting took similar action, after listening to a number of stirring speeches.
